

BIRD CHECK-LIST

Tiger Mountain Pokhara Lodge is an ideal base for birding and welcomes dedicated bird watchers and amateur enthusiasts alike. Our expert local guides will lead specialist birding walks looking for a particular species or family as well as general bird watching walks to augment sighted bird lists.

Species sighted from February 2002 in the Pokhara Valley and adjacent hillsides 3000ft to 7,500ft (914m to 2300m) by Tiger Mountain Staff & Associates

Based on the list of Mr. Dhan Bahadur Chaudhary, Naturalist of Tiger Tops Jungle Lodge and Member of the Nepal Rare Birds Committee, who visited from 2nd to 4th February 2002 and spotted 135 species.

Additions to that list by Messrs. Jhanak Raj Chaudhary, Hari Bhakta Adhikari, Hari Pariyar, Hari Bhandari and Sajan Ranabhat, Guides at Tiger Mountain Pokhara Lodge, guests and Marcus Cotton, Managing Director, all of whom would like to acknowledge the guidance and inspiration of Dr. Charles McDougal PhD, anthropologist, tiger ecologist, naturalist and keen bird watcher - Director of Wildlife for Tiger Tops since 1972, who died in 2016.

Common and Scientific Names are all from 'Birds of Nepal', Grimmett R, Inskipp C and Inskipp T, published Om Books International. ISBN 978-81-87108-58-0. The list below is ordered as in this book.
